Peter and Tina established Optimus Group Limited to provide corporate governance, compliance and risk support to financial regulated companies in the Channel Islands. Between them they have worked in the finance industry for over 50 years, most recently specialising in supporting Boards of companies in their corporate governance, compliance and risk requirements. Peter often speaks at conference on these topics.

Optimus Group is unique in being the only provider of corporate governance consultancy services to boards in the Channel Islands. For the past two years Optimus Group has undertaken independent board evaluations and detailed analysis on companies utilising their database of over 100 Guernsey registered listed companies. The information held allows Optimus to provide information on directors fees, board and committee meetings and structures and service provider fees.
